Reports

To better understand the different areas of the reporting section, please refer to the diagram below:

The screenshot shows the SmarterMail Enterprise Reports interface. The interface is divided into several sections:

- Navigation Pane (left):** A vertical sidebar containing a list of report categories and sub-items, such as Custom Reports, My Reports, Disk Usage, File Storage Disk Usage, Traffic Reports, Message Traffic, Message Data, Throttle Traffic, Throttle Violations, SMTP In Usage, SMTP In Errors, SMTP Out Usage, SMTP Out Errors, POP Usage, POP Errors, IMAP Usage, IMAP Errors, Trusted Senders, Spam and Virus Reports, Incoming Spam, Outgoing Spam, Greylisting, Viruses, and Domain Summary Reports.
- Report Header & Options (top right):** A blue header bar with a 'Report' title and buttons for 'Generate Report', 'Export', 'Print', and 'Set Dates'. Below this is a date range selector showing '02/11/2014' to '02/17/2014' and options for 'Chart', 'Sort', and 'Table'.
- Content Pane (main area):** Displays a 'Message Traffic Summary' for the date range '2/11/2014 to 2/17/2014'. It includes a bar chart comparing 'Incoming Messages' (blue bar, value 3) and 'Outgoing Messages' (orange bar, value 9). Below the chart is a table with columns for Rank, User, Account Type, Incoming Messages, Outgoing Messages, Incoming Spam Messages, and Outgoing Spam Messages.

Rank	User	Account Type	Incoming Messages	Outgoing Messages	Incoming Spam Messages	Outgoing Spam Messages
1	admin	User	3	9	-	-
Total			3	9	0	0
Average			3	9	0	0
