## Message Sniffer

This report tells you the number of messages that Message Sniffer classified as potential spam on your server. System administrators may use this report to verify that the Message Sniffer add-on is working, to gauge the amount of spam coming into the server and more. Note: Not all reports are available for users and/or domains. Consult your system or domain administrator for report availability.

The following report items are available:

- Day - The specified amount of time that the report data falls within.
- Confirmed - The number of messages Message Sniffer confirmed as coming from known spam sources.
- Not Spam - The number of messages Message Sniffer deemed were not spam.
