## Mapped Resources

This feature is only available in SmarterMail Enterprise edition.

SmarterMail allows you to connect to resources (calendars, e-mail folders, etc) that have been shared to you by other users on your domain. To connect to a shared resource, perform the following steps:

- To get started, click the Settings button on the main toolbar, and then select Mapped Resources in the Sharing folder under the My Settings tree view.
- You will be presented with a list of all currently attached resources.
- You can search for resources by name, or find one in the list and click on the Attach button.
- Enter a friendly name for the resource and click the Save icon.

The resource will now be available in the sidebar.

If you wish to detach from a resource, go into Open Shared Resources and click on the Detach link next to the item.
