Spam and Virus Reports

Incoming Spam

This report tells you the number of spam messages which were received at different tolerance levels for all domains on your server. Note: Not all reports are available for users and/or domains. Consult your system or domain administrator for report availability.

The following report items are available:

- Account Type - The type of account the email address is associated with (user, domain administrator, or system administrator).
- High Spam Messages - The total number of messages received with a high spam tolerance level.
- Medium Spam Messages - The total number of messages received with a medium spam tolerance level.
- Rank - The order in which users or domains are listed within the report.
- Total Spam Messages - The total number of messages received with any spam tolerance level assigned to it.
- User - The specific user on the domain.

Outgoing Spam

This report tells you the number of outgoing messages that were blocked due to spam for all domains on your server. Note: Not all reports are available for users and/or domains. Consult your system or domain administrator for report availability.

The following report items are available:

- Account Type - The type of account the email address is associated with (user, domain administrator, or system administrator).
- Blocked Messages - The total number of messages that were sent and blocked as spam.
- Rank - The order in which users or domains are listed within the report.
- User - The specific user on the domain.

Greylisting

This report tells you the number of connections which were allowed and delayed due to greylisting for all domains on your server. Note: Not all reports are available for users and/or domains. Consult your system or domain administrator for report availability.

The following report items are available:

- Account Type - The type of account the email address is associated with (user, domain administrator, or system administrator).
- Allowed Connections - The total number of messages that passed greylisting and were delivered to the mailbox.
- Connections - The total number of connections made to a particular server (i.e., SMTP, POP, IMAP, etc.)
- Delayed Connections - The total number of messages that were delayed due to greylisting.
- Rank - The order in which users or domains are listed within the report.
- User - The specific user on the domain.

Viruses

This report tells you the number of viruses which were received through email for all domains on your server. Note: Not all reports are available for users and/or domains. Consult your system or domain administrator for report availability.

The following report items are available:

- Account Type - The type of account the email address is associated with (user, domain administrator, or system administrator).
- Rank - The order in which users or domains are listed within the report.
- User - The specific user on the domain.
- Viruses - The total number of viruses detected from incoming mail.
