System Administrator

To better understand the different areas of the system administrator's interface, please refer to the diagram below:

The screenshot shows the SmarterMail Enterprise 8.0 System Administrator interface. The interface is divided into two main sections: a Navigation Pane on the left and a Content Pane on the right.

Navigation Pane: Located on the left side, it contains a 'Manage' menu with a 'New' dropdown. Below the menu is a tree view of system components, including Domains (with 'All Domains' and 'Disabled' sub-items), Spool, All Messages, Waiting to Deliver, User Activity, Current Connections, Current Blocks, Mass Messaging, Services, View Logs, Indexing Status, Message Archive Search, Impersonate, and Password Policy Compliance.

Content Pane: Located on the right side, it displays the 'Domains' management page. The page has a header with 'Edit', 'Delete', and 'Manage' buttons, and a search box. Below the header is a table with the following columns: Domain Name, Size, File Storage, Users, Aliases, and Mailing Lists. The table contains 9 rows of domain data.

Domain Name	Size	File Storage	Users	Aliases	Mailing Lists
asdf.com	0 MB	0 MB	1	-	1
friendypets.com	3 MB	0 MB	3	1	1
macrosans.com	5 MB	0 MB	3	1	-
mfassociates.com	10 MB	0 MB	1	-	-
openinc.com	198 MB	0 MB	12	3	2
radscolm.com	2 MB	0 MB	3	-	-
resources.com	4 MB	0 MB	8	-	-
server113.sd.com	5 MB	0 MB	2	1	-
spreedusa.com	227 MB	0 MB	47	3	4

At the bottom of the Content Pane, there is a summary: '9 domain(s), 80 user(s)'. The status bar at the bottom right shows '1 of 1' and navigation icons.
