Alias Events

System administrators can receive notifications based on the following alias events:

- Alias Added - Notifies system administrators when a user creates a new email alias.
- Alias Deleted - Notifies system administrators when a user deletes an existing email alias.

Depending on the event selected, the following event criteria are available:

- Alias Addresses - The alias address that will trigger the event.
- Alias Name - The alias name that will trigger the event.
- Domain - The domain on which the event occurs.
- Time of Day - The time frame during which the event occurs.

Depending on the event selected, the following actions are available:

- Execute command-line
- Send email
- Use notification profile
