

# Throttling Events

Help Documentation

## Throttling Events

System administrators can receive notifications based on the following throttling events:

- Domain Throttled - Notifies system administrators when a domain reaches the throttling threshold.
- User Throttled - Notifies system administrators when a license is about to expire.

Depending on the event selected, the following event criteria are available:

- Domain - The domain on which the event occurs.
- From Address - The email address from which the message is sent.
- Time of Day - The time frame during which the event occurs.

Depending on the event selected, the following actions are available:

- Execute command-line
- Send email
- Use notification profile
