Help Documentation

Commtouch Zero-hour Antivirus

This report tells you the number of incoming messages that the Commtouch Detection Center flagged as containing potential viruses. System administrators may use this report to verify that the Commtouch Zero-hour Antivirus add-on is working. Note: Not all reports are available for users and/or domains. Consult your system or domain administrator for report availability.

The following report items are available:

- High Result - The number of messages the Commtouch Detection Center deemed have a high likelihood of presenting a virus threat.
- Nedium Result - The number of messages in which the Commtouch Detection Center found a probable threat of viruses.
- Non-virus Result - The number of messages the Commtouch Detection Center confirmed did not contain viruses.
- Unknown Result - The number of messages in which the Commtouch Detection Center could not determine the threat for viruses.
- Virus Result - The number of messages in which the Commtouch Detection Center confirmed they contained a virus.
