SMTP In Errors

This report tells if any errors occurred from SMTP incoming mail for all domains on your server. Domain and system administrators may use this report to identify users that are using faulty email clients or unnecessarily using system resources. Note: Not all reports are available for users and/or domains. Consult your system or domain administrator for report availability.

The following report items are available:

- Account Type - The type of account the email address is associated with (user, domain administrator, or system administrator).
- Bad Commands - The total number of bad commands given.
- Blocked Connections - The total number of connections that were blocked.
- Rank - The order in which users or domains are listed within the report.
- Terminations - The total number of terminations that occurred for incoming mail.
- User - The specific user on the domain.
