Commtouch Premium Antispam

This report tells you the number of messages that the Commtouch Detection Center classified as potential spam on your server. System administrators may use this report to verify that the Commtouch Premium Antispam add-on is working. Note: Not all reports are available for users and/or domains. Consult your system or domain administrator for report availability.

The following report items are available:

- Bulk - The number of messages the Commtouch Detection Center deemed as sent in bulk.
Note: Newsletters or mailing list messages may be included in this classification.
- Confirmed - The number of messages the Commtouch Detection Center confirmed as coming from known spam sources.
- Not Spam - The number of messages the Commtouch Detection Center deemed were not spam.
- Suspected - The number of messages the Commtouch Detection Center suspected might be spam because they were sent to a slightly larger than average distribution.
