

Time Taken by Server IP

Help Documentation

Time Taken by Server IP

If your website is configured in a load-balanced or Web garden environment, this report displays server activity on a per server basis. Users and site administrators can use this information to determine if a specific server is slow to generate pages.

Note: This report can be added as a report item to a custom report. For more information on report items, refer to [Understanding Report Items](#) .

For a definition of the terms listed on this page, please refer to the [Glossary](#) .
