

Spider Traffic Trend

Help Documentation

Spider Traffic Trend

This report displays all of the spider and/or bot activity (page views hits, and bandwidth) on your website for the selected date range. Note: You can specify how data is displayed (hourly, daily, weekly, etc.) by using the Group By report option.

Note: This report can be added as a report item to a custom report. For more information on report items, refer to [Understanding Report Items](#) .

For a definition of the terms listed on this page, please refer to the [Glossary](#) .
