## Understanding Report Items

Report Items are the backbone of the SmarterStats application, and every statistic taken from your log files (e.g. Top Paths) is considered a Report Item. Report Items contain a single table of information and optionally, a chart.

Standard Reports and Custom Reports contain various Report Items. For example, a "Webmaster Report" would have a "Top Path" report item, a "Top Entry Pages" report item, etc.

SmarterStats provides a Report Item tree on the left sidebar. Using this sidebar, end-users know all the Report Items that are available for use.

For more information about report items, refer to the Report Reference from the tree on the left.
