Help Documentation

## Mobile Device Versions

This report displays the most popular versions of the mobile devices used by your website visitors during the selected date range. Webmasters can use this report to ensure that their website loads properly in all of the mobile phones used by your visitors.

Note: This report can be added as a report item to a custom report. It may also be used in the creation of standard reports. For more information on report items, refer to [Understanding Report Items](#) .

For a definition of the terms listed on this page, please refer to the [Glossary](#) .
