Help Documentation

Platforms

This report displays the most popular operating systems used by your website visitors during the selected date range. It should be noted that some user agents, such as Microsoft Web Service Client, do not send information about the platform they are running on. In those cases, they will be categorized as "unknown" in this report.

Note: This report can be added as a report item to a custom or favorite report. It may also be used in the creation of standard reports. For more information on report items, refer to [Understanding Report Items](#) .

For a definition of the terms listed on this page, please refer to the [Glossary](#) .
