

Spider Top Files

Help Documentation

Spider Top Files

This report displays the website files most frequently accessed by spiders and/or bots, regardless of the file extension.

Note: This report can be added as a report item to a custom report. It may also be used in the creation of standard reports. For more information on report items, refer to [Understanding Report Items](#) .

For a definition of the terms listed on this page, please refer to the [Glossary](#) .
