## SEO Processing

This feature is only available to site administrators.

Site administrators can use this page to check the retrieval status of the site's SEO statistics. By default, SmarterStats updates the SEO statistics daily. This process starts at midnight and can last several hours, depending on the number of SEO campaigns, keywords, search engines, etc. that SmarterStats is retrieving statistics for. If needed, site administrators can force SmarterStats to update statistics at any time from the SEO Settings page.
