Help Documentation

Account Settings

To edit your personal settings, click the settings icon . Then expand the My Settings folder and click Account Settings in the navigation pane. The account settings will load in the content pane and the following tabs will be available:

User

Use this tab to edit the following user settings:

- Username - The username the user uses to login to SmarterStats.
- Current Password - The current password used to login to SmarterStats.
- New Password - The new password the user wants to use to login to SmarterStats.
- Confirm Password - The new password the user wants to use to login to SmarterStats Note: To successfully change the password, be sure the text typed into this field matches the text typed into the New Password field.

Report Options

Use this tab to edit the following report settings for reports and report items:

- Default Date Range - The default date range for which statistics are calculated upon login.
- Default Report Rows - The default number of rows in each table of a report or report item.
- Site Report Charts - To enable charts for site reports, choose the appropriate option from the list.
- SEO Report Charts - To enable charts for SEO reports, choose the appropriate option from the list.
- Enable IP address resolution - Select this option to resolve all IP addresses that show up in reports to their host names. Note: Enabling this feature will increase the amount of time it takes to render report items with IP addresses. System administrators may limit the number of resolutions performed per report item.
- Generate reports automatically on page load - Select this option to automatically generate reports when they are selected. Enabling this option will make navigating SmarterStats slower, but will reduce the amount of clicking you have to do to see reports.
