

# Logging in to SmarterStats - System Admin

Help Documentation

## Logging in to SmarterStats

System administrators can access the SmarterStats Web interface login page by navigating to the location of the SmarterStats installation in their Web browser. By default, this URL is `http://127.0.0.1:9999` (if running the browser on the server itself) or the IP address of the server (instead of 127.0.0.1).

To login to SmarterStats, type the site ID, username, and password in the appropriate fields and click Login . By default, the site ID, username, and password for the system administrator is "admin" (without the quotes).

To stay logged in to SmarterStats even after closing the browser, be sure to select the Remember Me checkbox. This will allow SmarterStats to encrypt the username and password. This feature works as long as you do not log out of SmarterStats prior to closing your browser window. Note: Browser cookies must be enabled for this feature to work.
