

# Control Panels

Help Documentation

## Control Panels

SmarterTools has spent considerable effort into providing a solid Web services implementation in its products in order to facilitate automation systems. As a result, more and more control panel providers are finding it easy to tie our products into their interfaces.

### Parallels Automation

The integration of SmarterMail with Parallels Automation is fully embedded within the Parallels Automation product. Just download the APS package from within the Parallels app portal.

### WHMCS

The integration of SmarterMail with WHMCS is available as a free add-on, which can be downloaded from the WHMCS App Store. Two modules are available: an admin area module for basic SmarterMail management, and a provisioning module that allows for multiple SmarterMail servers, adding domains, webmail log in and more.
