Adding a feed requires two pieces of information:

- URL - The feed URL must be entered exactly as it is written in the web site you want to track. Some sites do not offer RSS, and those that do usually have a link from their web site to the RSS feed. Some sample RSS feeds can be found in the help topic Sample Feeds .

Sample Feeds

There are many RSS feeds on the internet today. This topic contains many of the more common feeds, although this list is by no means exhaustive.

The following links are either direct RSS feed URLs or links to web pages containing an RSS feed list. To add a feed to SmarterMail, right-click on the link and select "copy shortcut" from the context menu. Then paste this value into the RSS URL in SmarterMail.

Feed lists (designated by [feed-list]) will typically have orange XML icons next to each feed. Follow the same procedure (copy shortcut) to get the URL of those feeds.
