South American Cities

This report shows the traffic from the cities and countries of South America, with the highest activity city being listed first. The cities that visitors are coming from are identified by IP address.

This report is useful for business owners and/or marketers as it can expose previously unknown potential for growth. If there is a marked increase in website visitors from a particular city it may be worth starting a PPC campaign to further increase that traffic or even possibly creating a landing page specifically for visitors from that city.

Note: This report can be added as a report item to a custom report. For more information on report items, refer to [Understanding Report Items](#) .
